About Company

ESEN BUILDERS was originally founded in Dar es Salaam in 1994 as a Building and Civil Engineering Contractors and was registered by the national Contractor Registration Board (CRB) in Class Seven. Since then it has been involved mainly in building maintenance, rehabilitations, new construction and occasionally road repairs and supply of building materials and as a result of its credible performance it has been rising stage by stage until now is in Class Four for Buildings and Class V for Civil Works. ESEN is now also venturing into property development business.

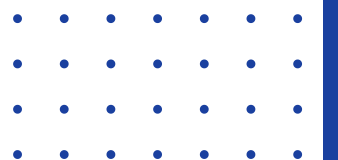

Our Vision

Everything that we are and everything that we do shall be encompassed within the spirit of 'Retaining Customers for Life. No single thing that we do is so urgent or important that we cannot take a moment to consider Customer satisfaction, Health & Safety and the Environment

Our Spirit

Across all our services – from refurbishment to new build or construct- we adopt a personal, responsible approach, laying the foundations for a lasting relationship in every project we undertake.

Personnel

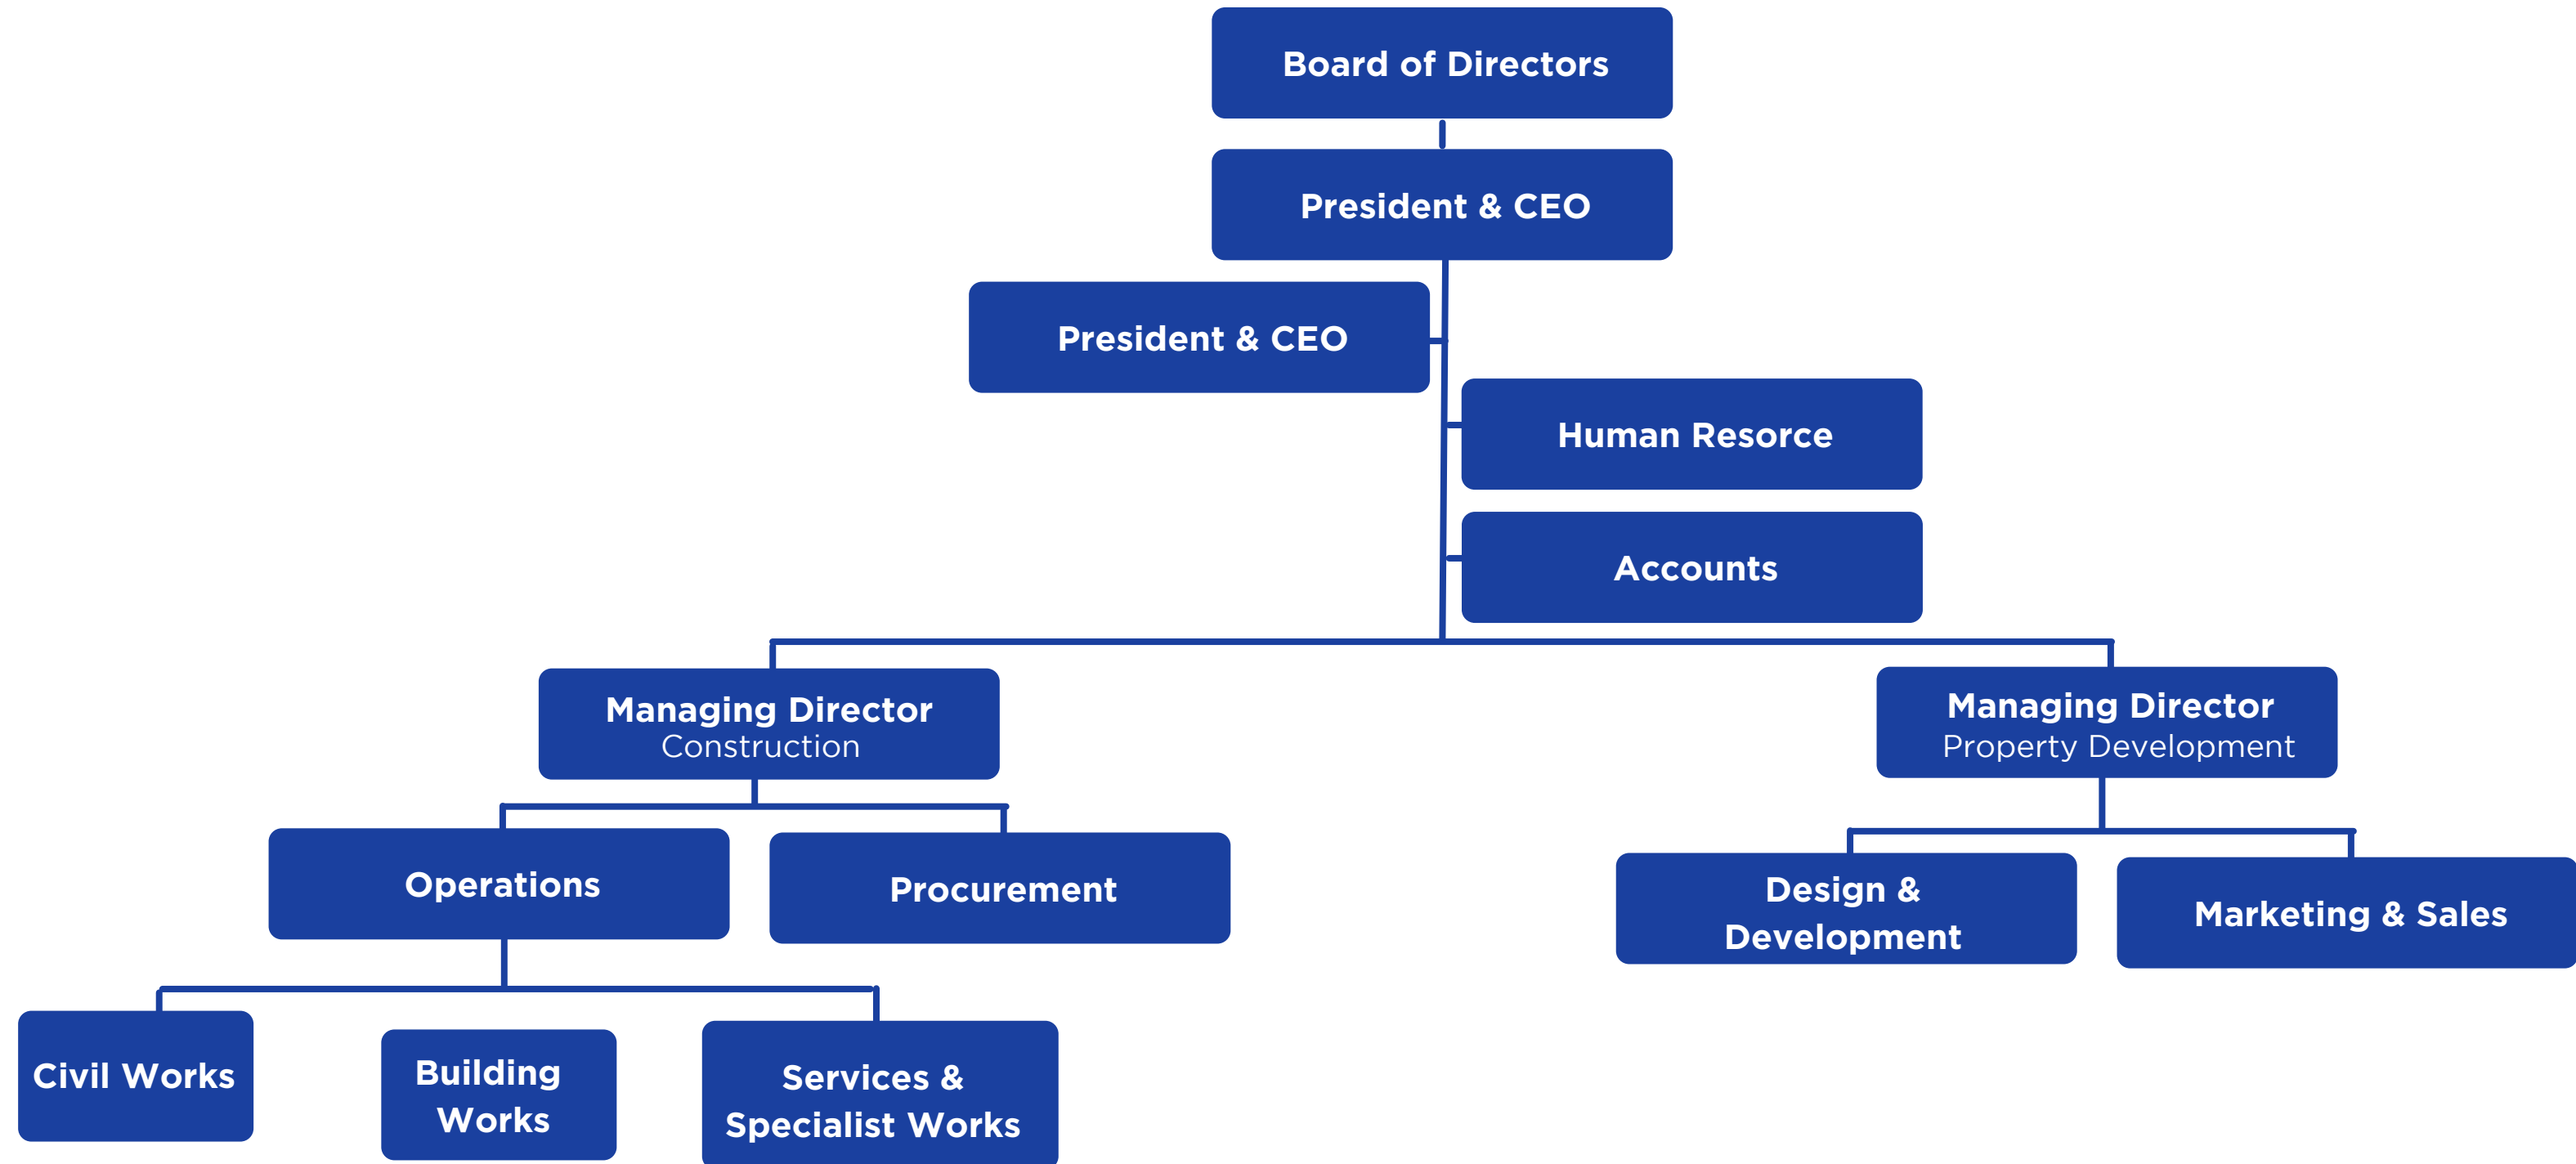

ESEN Builder's services are provided by a highly experienced and educated, in-house staff of licensed professionals, project managers, and technicians supplemented by a consortium of highly qualified professional consultants from within and outside of the country. Consortium consultants include Architects, Engineers, Quantity Surveyors, Human Resource Specialists, and a Matrix of Technicians with professional qualifications, experience, and reputation, combined with their versatility and ability to provide service in a timely manner. This unique blending of resources through the application of strong project management skills is strength for the company's success.

Organisation Structure

Company Experience

As major building and civil works contractors operating on a national scale, Esen Builders has established an unrivalled reputation across a broad range of services. From contract maintenance work to new build projects, road works, bridges, office refurbishments to commercial fit-out; we create environments that perfectly match our client's vision. We provide a complete building package for our customers. All sites are project managed from start to finish and a designated site manager oversees the work of our tradesmen.

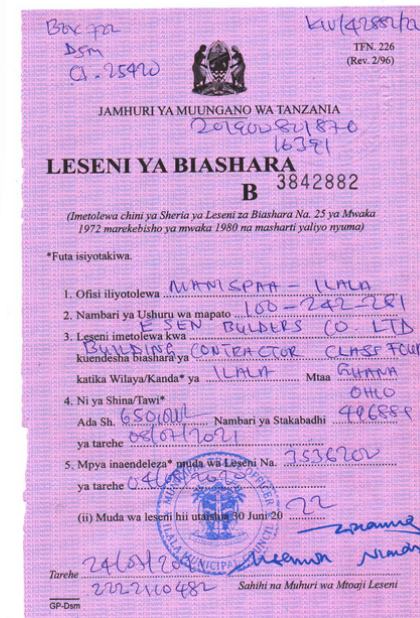

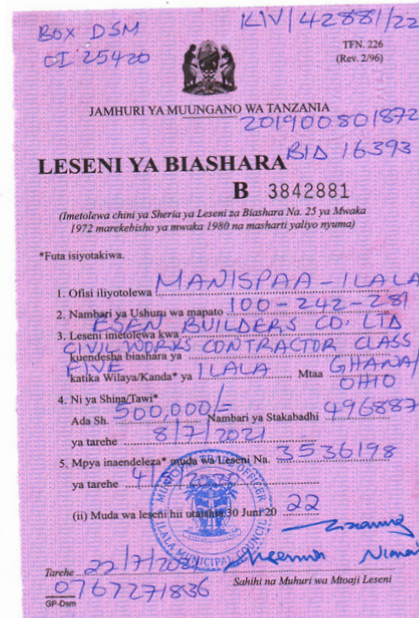

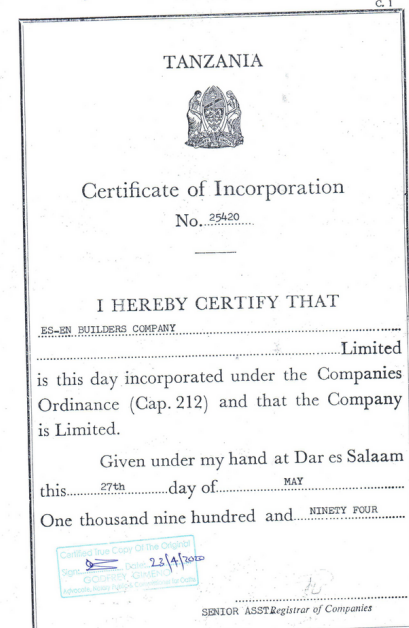

Our meticulous approach ensures each project from a bathroom installation to a complete refurbishment and structural extension will be completed on time and on budget and to the highest standards. As conscientious builders, we believe that a tidy workplace is as important as the final finish and endeavour to keep our workplace tidy and protect our clients' possessions.
